THE WELCOME CENTER

The influx of international skilled workers is a key factor for securing a sustainable base of skilled workers in the face of demographic change. The Welcome Center Heilbronn-Franken therefore aims to attract skilled workers to our region and integrate them in the long run.

We welcome international skilled workers in our region and support companies that want to do the same.

The Welcome Center is keen to play a part in increasing international awareness of the region as an attractive place to live and work and promoting an open welcoming culture in the region.

The Welcome Center acts as an interface to different institutions, authorities and organisations in the region of Heilbronn-Franken under the umbrella of the Wirtschaftsregion Heilbronn-Franken GmbH in order to make use of existing structures.

SUPPORT SERVICES

INTERNATIONAL SKILLED WORKERS

- Pilot function with regard to questions around work, education, living and housing
- Orientation about job search, recognition of foreign professional qualifications, residence regulations and language learning
- Information on support programmes and forwarding to regional offers

REGIONAL BUSINESSES

- Information on options in the acquisition of international skilled workers
- Support with practical questions concerning work, integration and retention of international skilled workers
- Information on general frameworks and current projects
- Correspondence with points of contact and network partners

The pooling of information in this one single institution makes it possible to provide individual, tailor-made initial advice that is passed on to the relevant point of contact or the right network partner in the region.

The Welcome Center Heilbronn-Franken is funded by the Ministry of Economic Affairs, Labour and Housing Baden-Württemberg.
